

(0s-3s)

Hook: "Want to automate your tasks with just your voice?"

(4s-10s)

Problem statement: "Are you tired of switching between calendar, email, and tasks?"

(11s-18s)

Solution: "I built an AI personal assistant using n8n, and it's a game-changer!"

(19s-25s)

Demo: Show the n8n workflow with green dots, and the Telegram chat interface with the AI's response.

(26s-30s)

CTA: "Want to learn how to build your own AI assistant? Go to my channel for a step-by-step tutorial! "

Script Variation 2: "Future of Automation"

(0s-3s)

Hook: "Imagine having a personal assistant that can do it all... with just your voice!"

(4s-10s)

Future of work statement: "The future of automation is here, and it's changing the way we work!"

(11s-18s)

Solution: "I'm using n8n to create a no-code AI agent that can manage my tasks, calendar, and email!"

(19s-25s)

Demo: Show the n8n workflow with green dots, and the Telegram chat interface with the AI's response.

(26s-30s)

CTA: "Ready to automate your workflow? Join my free Skool community and download the workflow now! "

Script Variation 3: "From Idea to Reality"

(0s-3s)

Hook: "What if I told you I built an AI personal assistant in under an hour... using no code?"

(4s-10s)

Problem solution statement: "I used n8n to automate my tasks, and now I have more time for what matters!"

(11s-18s)

Demo: Show the n8n workflow with green dots, and the Telegram chat interface with the AI's response.

(19s-25s)

Value proposition: "With n8n, you can create custom AI agents that work for you, not the other way around!"

(26s-30s)

CTA: "Want to turn your ideas into reality? Go to my channel for a step-by-step guide on building your own AI assistant!"

Each script variation is designed to capture the audience's attention, provide value, and drive engagement. They highlight the key benefits of using n8n for AI automation, showcase the creator's expertise, and direct viewers to take the next step.
