

(0s-3s)

Hook: "Mujhe Samajh Nahi Aa Raha... how I built a personal assistant AI without writing a single line of code!"

(4s-10s)

"I'm using n8n to automate my tasks, and it's a game-changer. No more tedious coding, just pure creativity!"

(11s-18s)

[Visual demonstration of the workflow executing]

"Watch as I create an event, send an email, and list all events using just voice commands!"

(19s-25s)

[Telegram chat audio response]

"And the best part? I get instant feedback in my Telegram chat!"

(26s-30s)

"Want to learn how to build your own AI personal assistant without coding? Comment 'Magic' below, and I'll share a step-by-step tutorial video on my channel!"

### **Script Variation 2: "Tech Hack" Reveal**

(0s-3s)

Hook: "What if I told you I can create apps without coding? Sounds like magic, right?"

(4s-10s)

"Using n8n, I can automate tasks and workflows with ease. No more coding nightmares!"

(11s-18s)

[Visual demonstration of the workflow executing]

"Check out how I use voice commands to create an event, send an email, and list all events in real-time!"

(19s-25s)

[Telegram chat audio response]

"The result? Instant feedback in my Telegram chat, and I didn't write a single line of code!"

(26s-30s)

"Ready to unlock the power of no-code automation? Join my free Skool community and download the workflow to get started!"

### **Script Variation 3: "AI Assistant" Demo**

(0s-3s)

Hook: "Imagine having a personal assistant that can automate tasks for you... without needing to

code!"

(4s-10s)

"I'm using n8n to build an AI-powered assistant that can create events, send emails, and more, all with voice commands!"

(11s-18s)

[Visual demonstration of the workflow executing]

"Watch as I demonstrate how to use n8n to automate tasks and workflows with ease!"

(19s-25s)

[Telegram chat audio response]

"The result? Instant feedback in my Telegram chat, and I didn't need to write any code!"

(26s-30s)

"Want to learn more about building your own AI personal assistant without coding? Check out my channel for a step-by-step tutorial video, and let's automate together!"

Each script variation focuses on the key successful elements to replicate, including a strong curiosity hook, showcasing the AI/no-code trend, clear value proposition, fast-paced and visually engaging format, simple and direct CTA, and educational content with immediate value.
